

## **Skills Inventory**

List out your major workplan goals and then try to breakdown and list the skills necessary to complete each, drawing lines to connect skills to multiple goals if possible. Next to each skill write down your current ability or comfort level (low, med, high).

| Work Goals | <u>Skills</u> | Prior Knowledge/Comfort Level (low, med, high) |
|------------|---------------|--|
|            |               |  |
|            |               |  |
|            |               |  |
|            |               |  |
| 2          |               |  |
|            |               |  |
|            |               |  |
|            |               |  |
| 3          |               |  |
|            |               |  |
|            |               |  |
